Advance in Salaries.

The action of Manager Kramer, of the Denver and Rio Grande express company, in voluntarily advancing the salaries of the messengers employed by the company is a pleasant contrast to proped by the company is a pleasant contrast to that of the United States express company, which made a sweeping reduction in wages. Not only were those of all office employes reduced, but the messengers also suffered. The management of the Rio Grande company have always been most liberal with their employes. The messengers held a meeting after reciving notice of the advance in their salaries, and adopted resolutions thanking Manager Kramer for his kindness. Their wages were raised about 18 per cent.

Not Encouraging.

He is inclined to think that \$1,500,000 allowed for fixed charges is not large enough to cover all the charges. May Day Passes With None of the Bloody Riots Predicted in European Capitals.

An Insignificant Disturbance in Paris the Only Cloud in a Clear Sky-London's Great Parade a Very Tame Affair-

It Didn't Pan Out.

LONDON, May 1 .- The terrible Mayday bogie has come and gone, and a very insignificant and harmless fellow he has shown himself to be. What little disorder there has been on the continent today where it was predicted and gravely tested blood would flow been confined to street fights and brawls of a proportion far beneath the character of a riot and the sanguin-ary Socialists and blood thirsty Anarchists are displaying a degree of meekness that causes a lamb to appear ferocious and positively dangerous by contrast.

In London the street displays boasted strength and uncompromising determination of workingmen were positively ridiculous in their meagreness. The parades were not directed by either trades-unionists or socialists, and really seemed to have no definite object. socialists and trades organizations, however, declare that they are reserving their forces for Sunday, when they will give an example of their power that will cause society to tremble. On all sides are heard angry murmurs at the sudden and unwar ranted action of the authorities in springing a large force of police upon the scene of the demonstration, together with a proclamation regulating parades and restricting their route. This they declare will be resented on Sunday unless the programme of the officials is

the meantime modified, which course it will not be. a matter of fact very few of those who did parade were genuine workers. The pocket-picking brigade was out in full force and many of the craft were arrested. The third division of the procession was composed of 500 girls representing strikers from the envelope factories. They carried among other banners one bearing the inscrip-"Those Who do not Dare to Celebrate To-Day are Slaves. '' Another banner was inscribed: "REMEMBER CHICAGO,"

and displayed pictures of chains, handouffs, nooses, etc., together with the names of Spies, Parsons and their

companions on the gallows, and the last words of Spies. The socialist leader, Morris, delivered a flery speech in Hyde park and strongly advocated the organization of concurrent strikes throughout the whole world with the single object of securing a universal eight hour day. If a struggle with the authorities should result from the movement, he declared the working classes would find it much easier and pleasanter to fight to death than to starve to death. Violent speeches were also made at

Special to the Gazette.

LONDON, May 1. - In violation of the order of Postmaster-General Raikes. 1500 postmen marched down Oxford street, headed by a band, to Memorial hall, Farrington street, where a noisy meeting was held. Resolutions protesting against long hours, demanding aix pence an hour for day of eight hours and calling for the abolition of class grades were adopted. In consequence of this action the postmaster-general threatens to enforce the law providing that government officials who disobey orders shall, if found guilty, be sentenced to five years imprisonment. It is doubtful, however, whether the wholesale conviction of 500 postoffice employees would not be more severe punishment of the public in view of the chaos into which matters would be plunged at the general postoffice than an inconvenience to the delinquents.

ALL QUIET AT PARIS. Paris, May 1 .- There has been no disturbance here up till this hour; all is quiet on the boulevard in outlying sections of the city, while central quarters wear their usual aspect. Shops throughout the city, with the exception of those devoted to the sale of fire arms and ammunition, are open, and business is being carried on as usual. Gas men and gas

ALL SERENE AT BERLIN.

Berlin, May 1 .- Quiet prevails throughout the entire city, and the streets bear their normal appearance. In consequence, either the notices issued by employers threatening to discharge em-ployes who absented themselves from work to take part in a labor demonstration or to the apathy of the men themselves, the Loews factory, a large establishment, began work this morning with nearly a full force, there being but fificen absentees. Of all the hands employed in Frister & Rossman's sewing machine factory, another large concern, only five failed to report for work at the usual hour. A large number of persons, however, are making the day a holiday. and are visiting Gruenwald and other suburban resorts.

Two hundred and sixteen of the proprietors of the smaller manufactories in this city closed their establishments to-day and gave all their employes a holiday.

NO DISTURBANCE AT VIENNA, VIENNA, May 1, 1:30 p. m .- Despite the belief that the labor demonstration in this city would be attended by great disorders, there has as yet been no disturbance whatever. There have been no street parades, but meetings are being held in various halls, which are attended by a larger portion of the working men in the city. No afternoon papers will be issued to-day, as the printers are all taking part in the May-day fetes. The strike movement in the provinces is sprending. It is calculated that throughout Austria and Hungary 1,000,000 men have already struck of threaten to strike.

PEPOPES PECSIVED AT MADRID. Madrid, May 10 .- Reports received here this morning concerning the May day celebration show that tranquility prevails throughout the provinces. Strikes in Vallincia, however, are spreading. Employes in all trades there are joining in the movement for the establishment of an eight hour working day. A manifesto has been issued by workingmen declaring in favor of eight hours as a legal day's work, and it has received a large number of signatures.

A SLIM PROCESSION AT LONDON. LONDON, May 1 .- The procession of workingmen which was held in this city to-day ran far short of the number it was expected would take part in the parade. The line was composed of only a few hundred men. The procession marched to Hyde park, where a number of speeches in favor of the workmen's cause were made. An attempt was made to hold a meeting at Haukney, but the police would not permit it. A procession was formed at Soho square but as this was contrary to police regulations it was broken up. Those taking part in the procession made no resistance, but quiet-ly dispersed when ordered to do so.
